

## Let us help keep your DPF clean.

Most engine OEMs recommend maintenance and cleaning of your DPF (diesel particulate filter) every 120,000 to 200,000 miles. Retrofit DPFs can have maintenance intervals as frequent as every 60,000 miles. Regular cleaning extends the life of the filter and helps your engine perform at peak power and efficiency. Rush Truck Centers use state-of-the-art DPF cleaning and diagnostic technology, performed by highly skilled, factory-trained professionals.
