

Rig Tough Fenders and Liners

Fiberglass Fenders

- Pre-drilled for easy installation
- Fiberglass fenders are less expensive than aluminum
- Heavier weight fiberglass does not require fender liner; however, liners will reinforce strength of fiberglass
- Fiberglass can be repaired, depending on the amount of damage
- Smooth exterior surface provides base for quality paint finish
- Primed surface allows for easier painting and color match

Fender Liners

- Corrosion resistant
- Shields against stone damage

Fiberglass Fenders Designed to Fit Peterbilt® 388/389
